AMANO

4700/4800 Series

AUTOMATIC TIME & DATE STAMP

Leaves no doubt as to when, who & where

- Automatic print
- Single-motor operation
- Adjustable print position
- Quiet clicking of time and punching
- Automatic ribbon advance and reverse
- Easy ribbon replacement
- Upper and/or lower inscription plates
- Available without clock face
- Consecutive numbering
- Attractive, modern styling complements any decor

Optional Features

Removable slug (lower)

For maximum security, only an authorized person can punch his own identification with time and date.

Power reserve with quartz accuracy

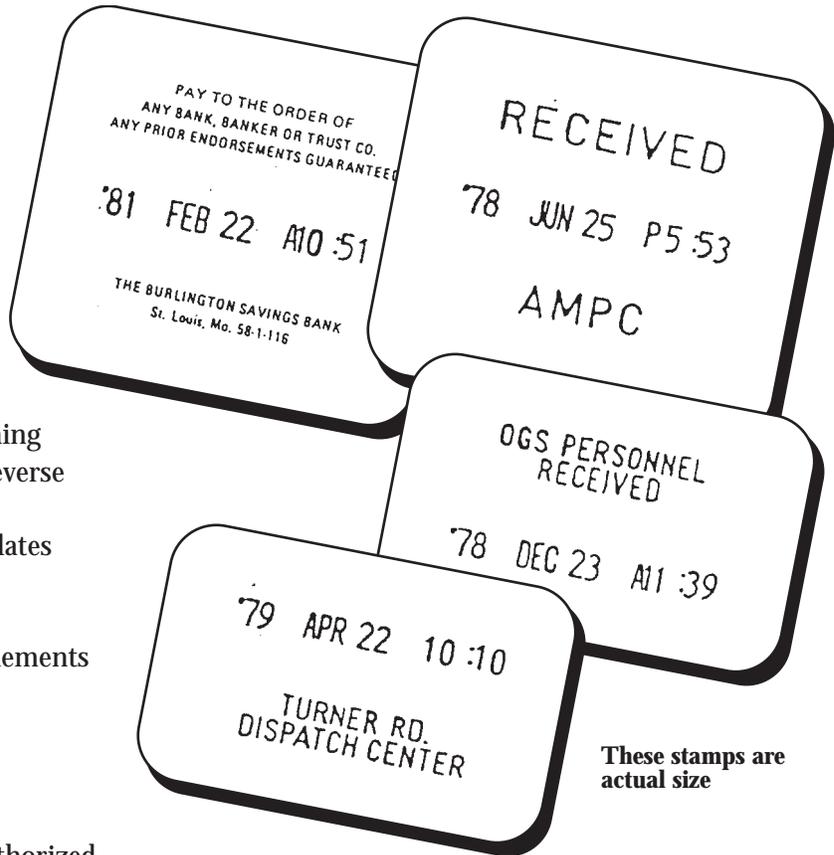

Maintains correct time even in the event of a power failure or disconnection of plug.

Julian date

Choice of Julian date instead of month and date.

DC impulse secondary

59th-3 wire with correction and 58th-2 wire correction are available to work with regular master clock.
